SAFETY AND SECURITY MEASURES IN THE TAMPA BAY AREA

As a result of the terrorist attacks of 9/11 and the potential for continuing threats, the U.S. Coast Guard Captain of the Port (COTP) Tampa has taken measures to increase safety and security on the west coast of Florida. These measures are necessary to increase public safety and to reduce the threat of sabotage or terrorist acts.

These measures include the establishment of security zones under the authority of Titles 33 of the U.S.C. (OSC) Section 1226, 33 USC 1231 & 50 USC 191.

The following areas are designated as permanent and/or temporary Security Zones and as such shall be enforced by Federal, State and Local law enforcement authorities.

- **Tampa Bay Safety Zones**
  - No vessel may transit within 1000 yards fore and aft and within the width of the channel of any ship or barge laden with Anhydrous Ammonia (NH3) or Liquefied Petroleum Gas (LPG) from Cut “F” Channel to berth in Old Tampa Bay. When a laden LPG vessel departs Cut “K” Channel at buoy “11K”, no vessel is permitted within 500 yards in any direction from the vessel to berth in Old Tampa Bay. The channels are indicated in this guide as follows:
    - NH3/LPG Ships:
    - LPG Barge:

- **Tampa Bay Security Zones**
  - No person or vessel may enter or remain in the safety or security zones noted in this guide, unless authorized by the COTP or his designated representative.

Example security zone signs:

PORT OF TAMPA FACILITIES

Fixed security zones have been established extending 50 yards from the shore or seawall and encompassing piers around facilities at the following locations: Sparkman Channel, Ybor Channel and portions of Garrison Channel. Port Sutton has been closed to vessel traffic.

PORT MANATEE, PORT OF ST PETERSBURG AND POWER PLANTS IN TAMPA BAY

A 50 yard Security Zone has been established from the shore or seawall and encompassing piers around facilities at the following locations: Sparkman Channel, Ybor Channel and portions of Garrison Channel. Port Sutton has been closed to vessel traffic.

CRYSTAL RIVER NUCLEAR POWER PLANT

All access to the channels approaching the Crystal River Nuclear Power Plant are closed to vessel traffic.

MACKDILL AIR FORCE BASE

A permanent restricted area exists in all waters contiguous to MacDill AFB. This zone extends out into the Bay more than ½ mile from shore and shall not be breached without the permission of the Installation Commander. For details, contact the 6th Security Forces Squadron, MacDill AFB, 813-828-3322, 828-3323, 828-3324 or 828-4872.

RATTLESNAKE & OLD PORT TAMPA

The industrial area opposite of the Gandy blvd boat ramp, behind and south of Imperial Yacht basin as well as areas east of R “10K” within the moorings of Old Port Tampa have been closed to vessel traffic.

SECURITY ZONE MODIFICATIONS:

The minor modifications that primarily reduce security zones within Tampa Bay have been implemented by a temporary rule. This rule is an interim measure until the Regulation is permanently amended in 33 CFR Part 165. The following changes to Security Zones are now enforced.

Sunshine Skyway Bridge: The security zone has been reduced. It includes all bridge structure columns, bases and dolphins from the north side to the south side. The only water includes the water in the main ship channel immediately under the main span of the bridge.

East Bay: The fixed security zones north of Pendola Point have been removed.

Hookers Point: The fixed security zone south of R.E.K. piers has been removed.

Rattlesnake: The fixed security zone now includes the landside Chemical Formulators facility on the peninsula.

LECO Big Bend: The fixed security zone now includes the cooling channel south of the power plant. (Technical correction)

CRUISE SHIPS, VESSELS TRANSPORTING OR TRANSFERRING HAZARDOUS CARGO

A 200 yard security zone exists surrounding all moored and transiting cruise ships and moored vessels carrying specific dangerous cargoes. No vessel or person is permitted within 100 yards of such vessel in Tampa Bay. Vessels encroaching within 200 yards must proceed at the minimum speed necessary to maintain safe navigation. The floating security zones for transiting cruise ships are indicated in this guide as:

THE SUNSHINE SKYWAY BRIDGE

A security zone exists in the channel immediately under the main span of the Sunshine Skyway Bridge and includes the bridge structure columns, bases and dolphins from the North and to the South. Contact with these structures is prohibited to include tying off, mooring, climbing on or disembarking passengers. The security zone only applies to the waters in the main ship channel immediately under the main span of the bridge.

PENALTIES FOR VIOLATION

Pursuant to 33 CFR 165.33, any violation of the security zones described herein, is punishable by civil penalties (not to exceed $32,500 per violation, where each day constitutes a continuing violation is a separate violation), criminal penalties (imprisonment for not more than six years and a fine of not more than $250,000), in rem liability against the offending vessel, and license sanctions.
